Sairaj Balu Nagargoje

Summary

Aspiring DevOps Engineer with hands-on experience in Docker, AWS, CI/CD pipelines, and workflow automation. I am skilled in bridging development and operations to streamline deployments, optimize infrastructure, and improve system reliability. Looking for opportunities in fast-paced engineering teams by automating processes, enhancing security, and delivering scalable solutions.

Education

A. C. Patil College of Engineering, Navi Mumbai (Kharghar)

Bachelor of Engineering in Computer Science & Engineering (IoT, Cyber Security, Blockchain)

• Current Aggregate (Upto SEM VI): 7.7 CGPA

Skills

• Cybersecurity: Pentesting, Threat Analysis

• Blockchain: Ethereum, Hyperledger basics

• DevOps: Docker, AWS

• Networking: (CCNA fundamentals)

• Programming: Python

• Automation: n8n

• Tools: Kali Linux, Prisma, CI/CD

• Version Control: git, GitHub

Work Experience

Career Counseling Intern

A. C. Patil College of Engineering, Kharghar June 2025 – September 2025 (3 Months)

Cyber Security Analyst Intern

Threat Prism (Remote)

August 2024 – September 2024 (45 Days)

Courses & Certifications (Ongoing)

- Cisco CCNA 200-301 Exam Prep (with labs)
- DevOps: Beginner to Advance with Projects
- CompTIA Security+ (SY0-701)

Achievements & Projects

- Live Streaming (2024): Managed end-to-end technical setup for the university's graduation live stream.
- Avishkar 2023 (Research Competition): Blockchain-based Healthcare Data Project.
- IoT GPS-GSM Tracking System: Built a real-time vehicle/location tracking solution.
- Mail Automation Project: Automated institutional email workflows.

Leadership & Positions of Responsibility

- Technical Head, CSESA (2023–2024 & 2024–2025): Led technical events and student initiatives.
- Event Head, Hack the Box (CTF) Competition (2023–2024): Organized and managed cybersecurity competition.
- Placement Committee Coordinator (2024–2025): Organized placement activities and student-company interaction.
